# Budgeting, Forecasting, and Reporting for Conservation Authorities

Conservation Authorities play a vital role in managing natural resources and protecting ecosystems. Effective budgeting is essential for prioritizing programs, allocating resources wisely, and meeting accountability standards. An integrated solution streamlines these processes, supports compliance, and enhances team collaboration.

## TRUE SKY BENEFITS

- **Increased User Engagement and Accuracy:** Enable program leaders to input budget data directly, promoting accountability and improving forecasting accuracy across departments.
- **Streamlined Program-Level Budgeting:** Manage and consolidate budgets across various program areas, such as planning advisory, regulatory services, and ecological restoration, while easily rolling out the budget to more users without increasing administrative workload.
- **Flexible Reporting Capabilities:** Effortlessly generate internal and external financial reports, accommodating both operating and capital budgets for regulatory compliance and accurate reporting.
- **Enhanced Data Security and Access Control:** Protect financial data with role-specific access, ensuring that only authorized users can view or edit accounts.
- **Integrated Data for Accuracy:** Seamlessly connect budgeting with data from ERP and HR systems, ensuring accurate reporting and reliable financial insights.
